

Quality Care **Senior**

IN-HOMESITTING&TRANSITION SUPPORT

VOTED **BEST HOME HEALTHCARE**
SERVICE 2025

The Facility Partner Checklist

Smooth Discharges & Seamless Care Transitions

FOR HEALTHCARE PARTNERS

Designed for healthcare partners — discharge planners, case managers, and marketing liaisons at rehab hospitals and assisted living communities — to evaluate when a resident or patient needs dependable, relationship-centered in-home sitting or transition support. Use it to pinpoint the moments where Quality Care Senior (**QCS**) can step in, protect your discharge timelines, and keep your patients safe at home.

Checklist for Facility Partners

TICK EACH BOX THAT APPLIES

1 Post-Discharge Safety

Does the patient need extra support during the **critical first 48–72 hours** back home after discharge?

☐

2 Fall Risk & Mobility

Are they recovering from a recent fall, surgery, or fracture (e.g., broken foot) requiring **watchful assistance**?

☐

3 Cognitive Engagement

Do they experience memory loss or confusion where **companion care and redirection** help prevent rehospitalization?

☐

4 Caregiver Burnout

Are family members **overwhelmed or unable** to provide around-the-clock supervision?

☐

5 Reliable Staffing

Do you need dependable **shared services or NEMT transport** to keep discharge timelines on track?

☐

PARTNERING WITH QCS

Flexible care. Expert CNAs. Zero lock-in.

Partnering with QCS means **flexible care from 2 hours to 24/7**, **expert CNAs**, and **zero long-term lock-in contracts** — so you can match the right level of support to every patient, exactly when they need it.
